## EXPERIENCE

### Backend Developer Intern

#### Logward

May 2021 – July 2021

Remote

- Wrote a micro-service in Typescript to log data processing events from the data pipeline. Also wrote .NET and Python libraries for it to integrate with the services involved in pipeline.
- Worked with many AWS services like SQS and S3. Also had exposure to Kubernetes and Jenkins.

### Full Stack Intern

#### GetAccess

Jan 2021 – Feb 2021

Remote

- Integrated multiple Accounting APIs of platforms such as Zoho Books, Quickbooks, and Khatabook into a single API by utilizing their OAuth 2.0 protocols and transforming all kinds of data into a single standard format.
- Worked with Nodejs(Express), MongoDB and JWTs for building the backend API, and Bootstrap and JQuery for the corresponding frontend.

## PROJECTS

### Impedia

<https://github.com/garvitchittora/Impedia>

April 2021

- Co-authored the backend of Impedia, an appeal management system for communication of student issues to faculties.
- Developed using Nodejs(Express) with MongoDB. Implemented authentication using JWTs for multiple user types like Student, Authority, Admin.
- Wrote unit tests to test all routes and controllers.

### Caliita

<https://github.com/GeekHaven/Saarani-backend>

July 2020

- Co-authored the backend of Caliita, a scheduling app for IITA which keeps track of all the events happening in the college.
- Developed using Nodejs(Express) with Firebase Realtime Storage. Firebase was used for data storage as well as for Google Authentication and Notifications for the App.
- The app has 350+ users and is often used to announce events by many societies of the college.

### DankCLI

<https://github.com/ssgts04/dankcli>

May 2019

- A command-line image captioning tool or meme generator which automatically adds white space and text to the top of your image, written in Python.
- Published as a python package on PyPy with over 45k total downloads.

## EDUCATION

### B.Tech. in Information Technology

Indian Institute of Information Technology, Allahabad

July 2019 - Present

- Cumulative GPA: 9.07 (4 Semesters)

### School

Delhi Public School, Ranipur

April 2005 – April 2019

- Class 12th Board(CBSE) Percentage: 95%
- Class 10th Board(CBSE) CGPA: 10

## SKILLS

### Languages

Node.js

Python

Go

Javascript/Typescript

C/C++(Experienced)

HTML/CSS

### Frameworks

ExpressJS

Django(Basic)

Flask(Basic)

### Utilities and DBs

MySQL

MongoDB

Git

Bash

## ACHIEVEMENTS

### Overall Winner, OpenCode'20

A month long event organised by the technical society of IIIT-A where participants are required to solve issues of varying difficulties in various open-source projects of different tech stacks.

### Codechef 4 ★

Rating: 1943

Profile: sggts04

## OTHER POSITIONS OF RESPONSIBILITY

- Coordinator, Web Development Wing at GeekHaven, Technical Society of IIIT-A
- Head, Web Operations at Effervescence, Cultural Fest of IIIT-A
- Executive, Web Operations at Aparoksha, Technical Fest of IIIT-A
